

RFF-2019-11

Questions and Answers

May 1, 2019

Question #1

Does neighborhood-based community services imply that the proposing agency be physically located in the underserved areas of proposed services?

While the proposing agency need not be physically located in the underserved areas of proposed services, at least some component of the proposal must include outreach activities in the underserved areas in order to engage the target population.

Question #2

Is this request for funding being offered to non-profit organizations 501(c)(3) only?

Per eligibility criteria in the RFF document, this opportunity is being offered to 1) community mental health centers (CMHCs) and other social service agencies and 2) any nonprofit organization that is qualified as exempt from federal income taxation under 501(c)(3) of the Internal Revenue Code. For-profit organizations are not eligible for this award.

Question #3

On page two of the application it lists the order of print documents. #7 states recent audit made in accordance with OMB circular A-133. Does this apply to a 501c3 like us? FYI, we have a financial review each year by a third party accounting firm.

The aforementioned financial review is what is being requested to accompany the proposal.

RFF proposals are due to DMHA by 4:30pm on Friday, May 10th.
